UNDERSTAND WHY IT HASN'T WORKED FOR YOU YET

Start by understanding why long-term weight loss hasn't worked for you in the past. What were the obstacles that kept you from reaching your goals? Understanding what these obstacles are and identifying how to overcome them will help keep you motivated this time around.

Here are 8 questions to help you understand why it hasn't worked for you yet:

1. What are the circumstances that trigger my unhealthy eating habits?

2. How does my emotional state affect my food choices?

3. Am I getting enough sleep and rest?

4. When do I feel overwhelmed or unmotivated to stay on track with my health goals?

5. What lifestyle changes do I need to make in order to reach my goals?

6. How can I reward myself for staying on track?

7. Who can I rely on to provide encouragement and support when needed?

8. What strategies will help me stay motivated this time?

UNDERSTAND WHY IT HASN'T WORKED FOR YOU YET

Once you have identified these obstacles and triggers, use the space provided in this journal to set weekly goals and measure your progress.

Make sure to go through our 15 tips to stay motivated and also read the chapter about self-sabotage and how to avoid it this time.

Use the daily trackers, journal prompts and log prompts to stay motivated day by day. Finally, read through the 30 powerful weight loss affirmations to help you stay focused and inspired.

THESE 15 TIPS WILL HELP KEEP YOU MOTIVATED ON YOUR WEIGHT LOSS JOURNEY

- Set realistic, achievable goals
- Track your progress and celebrate successes
- Find an accountability partner or support group
- Break big goals into smaller, more manageable chunks
- Focus on how you feel rather than the numbers on the scale
- Reward yourself for meeting milestones
- Find a workout buddy
- Don't be too hard on yourself if you slip up
- Focus on the positive changes in your body and mind
- Take time for yourself to relax and recharge
- Stay hydrated throughout the day
- Plan ahead with healthy meals and snacks
- Don't compare yourself to others
- Find activities that you enjoy doing
- Celebrate your progress and never give up!

AVOID SELF-SABOTAGE THIS TIME

Here are common ways in which we self-sabotage our weight loss journey and what to do instead. Make sure to read them carefully so that you can be aware of these pitfalls.

1. NOT KNOWING YOUR TRIGGERS

Here is how it's holding you back: If you don't know what your triggers are, it's easy to fall back into old habits.

Solution: Keep a food journal so you can identify patterns in your eating and figure out what triggers unhealthy eating behavior.

2. Not tracking your food intake or progress

Here is how it's holding you back: Not tracking your food intake and progress can make it difficult to stay on track with your weight loss goals.

Solution: Use this journal or app to record what you eat, as well as log your progress. This will help keep you accountable and motivated.

3. FOCUSING TOO MUCH ON THE SCALE

Here is how it's holding you back: Overemphasizing weight loss on the scale can lead to feelings of discouragement and failure.

Solution: Focus on your overall health and well-being, not just a number on the scale. Measure your progress using other metrics such as body fat percentage, waist circumference, and body measurements.

4. NOT TAKING TIME FOR YOURSELF

Here is how it's holding you back: Skipping out on self-care can lead to burnout and decreased motivation levels.

Solution: Take time to do the things that make you feel good—whether it's reading a book, taking a relaxing bath, going for a walk, or spending time with friends.

5. NOT GETTING ENOUGH SLEEP

Here is how it's holding you back: Lack of sleep can lead to cravings for unhealthy foods and decreased motivation levels.

Solution: Make sure to get 7-9 hours of quality sleep every night to help keep your energy levels up and stay on track with your goals.

6. NOT PLANNING AHEAD

Here is how it's holding you back: Without a plan for meals and snacks, it's easy to make unhealthy choices when hunger strikes.

Solution: Plan out your meals and snacks for the week so you always have healthy options on hand.

7. NOT BEING AWARE OF PORTION SIZES

Here is how it's holding you back: Underestimating portion sizes may lead to overeating and difficulty losing weight.

Solution: Take the time to measure out your food portions, or use a smaller plate to help control your portion sizes.

8. SKIPPING MEALS

Here is how it's holding you back: Going too long without food can lead to unhealthy cravings, overeating at the next meal, and difficulty losing weight.

Solution: Eat regularly throughout the day to keep hunger levels in check and energy levels up.

9. SURROUNDING YOURSELF WITH TEMPTATION

Here is how it's holding you back: Keeping unhealthy food in your home or workplace can lead to cravings and difficulty sticking to your weight loss goals.

Solution: Remove all tempting items from your environment, or find healthier alternatives that still satisfy cravings.

10. BEING TOO HARD ON YOURSELF

Here is how it's holding you back: If you're too hard on yourself for making a mistake, it can lead to feelings of shame and guilt which can derail your progress.

Solution: Accept mistakes as part of the process and remember that one slip-up won't ruin your progress. Be gentle and forgiving with yourself.

30 POWERFUL WEIGHTLOSS AFFIRMATIONS

1. I am in charge of my body and I make healthy choices.
2. I am enough, just as I am.
